

## DILX CONNECT

The DILX CONNECT is a customer facing holistic application, making information available at the fingertip of the Logistics Service Provider's customers. The DILX CONNECT enables you to conduct E-Commerce/E-Forwarding type business with a single click. Your customers can view quote, make booking, track their shipments, access BLs, port and warehouse details, making it easy and effortless for your customers to transact with you. It is also possible to manage multiple locations and intermodal transport. The DILX CONNECT provides you with the same functionality as commercial E-Commerce/E-Forwarding Logistics Providers.
